Special Issue: Synthesis of the Physiological, Environmental, Genetic and Silvicultural Determinants of the Growth and Productivity of Eucalypts in Plantations

Introduction

Synthesis of the physiological, environmental, genetic and silvicultural determinants of the growth and productivity of eucalypts in plantations
C. Beadle and P. Sands (Hobart, Australia) 1

Regular articles

Thinking about efficiency of resource use in forests
D. Binkley (Fort Collins, CO, USA), J.L. Stape (Piracicaba, Brazil) and M.G. Ryan (Fort Collins, CO, USA) 5

Eucalyptus production and the supply, use and efficiency of use of water, light and nitrogen across a geographic gradient in Brazil
J.L. Stape (Piracicaba, Brazil), D. Binkley and M.G. Ryan (Fort Collins, CO, USA) 17

The relative contributions of tree improvement and cultural practice toward productivity gains in *Eucalyptus* pulpwood stands
R.N. Pallett and G. Sale (Howick, South Africa) 33

Silvicultural effects on the productivity and wood quality of eucalypt plantations
J.L. de Moraes Gonçalves, J.L. Stape, J.-P. Laclau (Piracicaba, Brazil), P. Smethurst (Hobart, Australia) and J.L. Gava (Itapetininga, Brazil) 45

Nitrogen management in *Eucalyptus nitens* plantations
P. Smethurst (Hobart, Australia), G. Holz (Hobart, Australia and Burie, Australia), M. Moroni (Hobart, Australia and Corner Brook, Canada) and C. Baillie (Hobart, Australia) 63

Growth dynamics in a mixed-species plantation of *Eucalyptus globulus* and *Acacia mearnsii*
D.I. Forrester, J. Bauhus (Canberra, Australia) and P.K. Khanna (Kingston, Australia) 81

An irrigation-scheduling model for application of saline water to tree plantations
S. Theiveyanathan (Kingston, Australia), R.G. Benyon (Mount Gambier, Australia), N.E. Marcar, B.J. Myers, P.J. Polglase and R.A. Falkiner (Kingston, Australia) 97

Physiological regulation of productivity and water use in *Eucalyptus*: a review
D. Whitehead (Lincoln, New Zealand) and C.L. Beadle (Tasmania, Australia) 113

Selection of species and provenances for low-rainfall areas: physiological responses of *Eucalyptus cloeziana* and *Eucalyptus argophloia* to seasonal conditions in subtropical Queensland
M.R. Ngugi (St. Lucia, Australia), M.A. Hunt (Gympie, Australia), D. Doley (St. Lucia, Australia), P. Ryan (Gympie, Australia) and P. Dart (St. Lucia, Australia) 141

Changes in wood density of *Eucalyptus camaldulensis* due to temperature—the physiological link between water viscosity and wood anatomy
D.S. Thomas (Penrith, Australia), K.D. Montagu (Beecroft, Australia) and J.P. Conroy (Penrith, Australia) 157

Needs and opportunities for using a process-based productivity model as a practical tool in *Eucalyptus* plantations
A.C. Almeida (Aracruz, Brazil and Canberra, Australia), J.J. Landsberg (Canberra, Australia), P.J. Sands (Hobart, Australia), M.S. Ambrogi, S. Fonseca, S.M. Barddal and F.L. Bertolucci (Aracruz, Brazil) 167

Parameterisation of 3-PG model for fast-growing *Eucalyptus grandis* plantations
A.C. Almeida (Aracruz, Brazil), J.J. Landsberg (Canberra, Australia) and P.J. Sands (Hobart, Australia) 179

doi:10.1016/S0378-1127(04)00259-2

Verification of 3-PG growth and water-use predictions in twelve *Eucalyptus* plantation stands in Zululand, South Africa
P.J. Dye (Pretoria, South Africa and Scottsville, South Africa), S. Jacobs (Pretoria, South Africa and Skukuza, South Africa) and D. Drew (Pretoria, South Africa and Congella, South Africa) 197
Testing the utility of the 3-PG model for growth of *Eucalyptus grandis* × *urophylla* with natural and manipulated supplies of water and nutrients
J.L. Stape (Piracicaba, Brazil), M.G. Ryan and D. Binkley (Ft. Collins, CO, USA) 219
Understanding 3-PG using a sensitivity analysis
L.J. Esprey (Scottsville, South Africa), P.J. Sands (Hobart, Australia) and C.W. Smith (Scottsville, South Africa) 235
CABALA: a linked carbon, water and nitrogen model of forest growth for silvicultural decision support
M. Battaglia, P. Sands (Hobart, Australia), D. White (Wembley, Australia) and D. Mummery (Hobart, Australia) 251
Significance of rainfall distribution in predicting eucalypt plantation growth, management options, and risk assessment using the process-based model CABALA
D. Mummery and M. Battaglia (Hobart, Australia) 283

VOLUME 193, ISSUE 3 **1 JUNE 2004**

Above- and belowground biomass and net primary production in a cool-temperate deciduous forest in relation to topographical changes in soil nitrogen
R. Tateno, T. Hishi and H. Takeda (Kyoto, Japan) 297
Influence of parent material and soil type on the root chemistry of forest species grown on acid soils
M. Camps Arbestain (Santiago de Compostela, Spain), C. Mourenza, E. Álvarez (Lugo, Spain) and F. Macías (Santiago de Compostela, Spain) 307
Individual legacy trees influence vertebrate wildlife diversity in commercial forests
M.J. Mazurek and W.J. Zielinski (Arcata, CA, USA) 321
The expansion of native oakwoods into conifer cleared areas through planting
A.M. Truscott, R.J. Mitchell, S.C.F. Palmer and D. Welch (Aberdeenshire, UK) 335
Variation in survival and growth of cuttings in two clonal propagation methods for hybrid aspen (*Populus tremula* × *P. tremuloides*)
T. Haapala (Helsinki, Finland), A. Pakkanen and P. Pulkkinen (Vantaa, Finland) 345
Dead trees and protected polypores in unmanaged north-temperate forest stands of Lithuania
R. Vasiliauskas (Uppsala, Sweden), A. Vasiliauskas (Kaunas, Lithuania), J. Stenlid (Uppsala, Sweden) and A. Matelis (Vilnius, Lithuania) 355
Comparing height growth and biomass production of black spruce trees in logged and burned stands
J.-C. Ruel, R. Horvath, C.H. Ung and A. Munson (Sainte-Foy, Canada) 371
A test and application of the model ForNBM in a northeastern Ontario jack pine (*Pinus banksiana* lamb.) stand
Z. Zhu (Fredericton, Canada), N.W. Foster (Sault Ste. Marie, Canada), P.A. Arp, F. Meng and C.P.-A. Bourque (Fredericton, Canada) 385
Simulated cavity tree dynamics under alternative timber harvest regimes
Z. Fan, S.R. Shifley, F.R. Thompson III and D.R. Larsen (Columbia, MO, USA) 399
Long-term effects of repeated urea fertilization in Douglas-fir stands on forest floor nitrogen pools and nitrogen mineralization
J. Prietzel, G.L. Wagoner and R.B. Harrison (Seattle, WA, USA) 413

Book review
Natural resource conflict management case studies: an analysis of power, participation and protected areas
Y. Yasmi (Wageningen, The Netherlands) 427
